Brent,

I have most of the manual completed and by the end of today, I can send you what I have for you to get started on your end. I will need just a little more time to complete the machine breakdown drawings and spare parts. I will work on having the rest of the drawings done by the end of day Monday. I may be able to get them done sooner and will work on getting them to you as quickly as possible.

Thanks!

Hello Don,  
We need the installation, operation and maintenance manuals for the High Speed 24X60's we purchased from you all. Please include a manual for the lube system if it's separate. We must provide these before the units start up. The sooner we can get them the better.

Regards,  
Chris
